Please indicate your preferences below.

Do you consent to your pet's image and first name being published? Yes or No

Do you consent to your first name being published? Yes or No

Bentons Road Vet Clinic will provide all clients with estimates of proposed treatment or surgical procedures. These estimates are offered as a range of fees and are subject to change if the treatment plan alters during the course of your pet's treatment. We aim to provide up to date estimates on all procedures within our clinic. Please ask us at any time if you are unsure about how much the proposed treatment for your pet will cost. All fees are payable on the day of treatment or upon discharge of a hospitalised pet. Deposits and progress payments may be requested for estimates above \$1000 or for long term hospital stays.

Please circle below your preferred method of payment

Cash

EFTPOS

Credit card

Bentons Road Veterinary Clinic does not lend finance. If you anticipate having trouble paying the full fees at the time of treatment or discharge, please talk to us about applying for credit through **VetPay** – a company who provides finance for veterinary treatment. Applications can be completed online to organise pre-approval for treatment before we even begin.

Please consider Pet Insurance for your pet. Having pet insurance allows the best level of care for your pet without having to compromise because of financial difficulties. A pet insurance policy is best taken out when your pet is still young, before they have been to see us for any condition that may then preclude a future condition from being covered. Please speak to us about pet insurance today.
